DETAILED ACTION

Applicants' arguments, filed 12/9/03, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

NEW MATTER

Claims 3-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The amendment to claim 3, lines 8-10, wherein the displaying of marks on axes includes the displaying of a constant along with both the first and second ratio is NEW MATTER. It is noted that first and second ratios are displayed on axes as filed but consideration of the instant disclosure as filed has failed to reveal the display of a constant along with each ratio on the axes. A constant of various types are utilized for calculations but not their display as now claimed on the axes. This rejection is necessitated by amendment.

No claim is allowed.

Applicants' amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1631
